

Adobe Creative Cloud licensing overview

Flexible licensing options for primary and secondary schools and districts.

Bring Adobe Creative Cloud to your school or district with affordable, easy-to-manage licensing options available through the Adobe Value Incentive Plan (VIP). You'll enhance teaching and learning while helping students develop essential digital skills for college and career success.

Site license benefits:

Universal access

Give your students, teachers, and staff access to the latest industry-leading creative software so they can design, share, and publish compelling content across all media and devices.

Budget predictability

A low-cost, flat-fee, single-license purchase with one annual or multiyear contract for school-owned or leased computers, with the option to cover more at or after the time of purchase.

Flexible deployment and management

Designed for an individual school or district, licensing options offer a web-based Admin Console that makes it easy to centrally manage and deploy licenses.

Classroom and home use

Schools have the flexibility to use licenses for in-classroom deployment, including BYOD environments, or at home on teacher-owned machines.

Free instructional resources

Your educators can access the Adobe Education Exchange for free professional development and peer-to-peer collaboration, and Adobe for Teachers for curriculum and classroom project ideas. Get educators up to speed on Creative Cloud apps and ignite student's creativity.
