

Microsoft 365 Copilot

Discover and Envision Session

Discover the Power of AI with Copilot

What is Microsoft 365 Copilot

Microsoft 365 Copilot is a new AI-powered tool that combines the power of language models with your business data, including all your Microsoft 365 apps, documents, emails and conversations. It works alongside you, embedded in the apps you use every day, like Microsoft Word, Excel, PowerPoint, Outlook, Microsoft Teams, and Loop workspaces. Microsoft 365 Copilot helps you perform tasks faster and more efficiently enabling you to boost organisational creativity and work more productively.

How we help

Insight's Microsoft 365 Copilot discover and envision session is a 90-minute interactive session that provides a virtual or in-person opportunity to learn more about Microsoft 365 Copilot and Generative AI. The session includes a live demonstration of Copilot, an exploration of the factors and preparation that must be considered when implementing Copilot in your organisation and, an initial identification of use cases which will enable you to leverage the power of AI to deliver exceptional employee and customer experiences with increased productivity, efficiency, and ROI.

What you can expect

Each session is unique and catered to your interests, stakeholders and needs. You'll be able to ask questions and walk away with a deeper understanding of:

- What Microsoft 365 Copilot is, how it works and how it adds value.
- The challenges and considerations of AI
- The data, security and adoption factors that must be considered when implementing Copilot in your organisation
- Immediate steps you can take today to prepare for Microsoft 365 Copilot
- How to maximise success by unlocking data silos and migration
- Other Copilot products from Microsoft

Who should attend

This Insight discover and envision session is ideal for anyone who wants to learn more about Microsoft 365 Copilot and Generative AI. It is especially relevant for you:

- Executive leadership across key functional business areas
- IT and Security Managers
- People and Culture Lead

Duration:

90 minutes

Benefits:

- Gain a deeper understanding of Microsoft 365 Copilot.
- Experience Copilot capabilities, ask questions and work through use cases specific to your needs.
- Explore the factors that must be considered when implementing Copilot in your organisation.
- Leverage the power of AI to deliver exceptional employee and customer experiences.
- Increase productivity and efficiency with Microsoft 365 Copilot

Get started.
