

Essential 8 Uplift Workshop

THE OFFER

This engagement will assess your current security controls and provide recommendations on how to achieve your required Essential 8 Maturity level.

The engagement consists of the following:

Essential 8 Uplift Workshop

A PDF summary containing the understanding of current state and high level recommendations to increase maturity

Next steps workshop assist your agency in prioritising recommendations

Essential 8 Uplift Workshop

In this session, one of our security experts will explore the current state of your Essential 8 Maturity, leveraging existing maturity assessments where possible. We will then dive into the desired target state for your agency, but also understand other dependent projects and initiatives that may have impact.

This will allow our security expert discuss the complexities in increasing Essential 8 Maturity, whilst factoring in your agency's context and dependencies. We will also share lessons learned from engagements with other clients, to set up your agency for success.

The output of the session will be a PDF summary of your current position with high level recommendations. We will schedule a next steps call to walk through the recommendations and collaboratively prioritise them based on your requirements.

Deliverables

1. Sharing of lessons learned around Essential 8 maturity uplift from Insight to your agency
2. A summary of your current position and recommendations when it comes to Essential 8 maturity
3. A next steps and prioritisation session, to create actionable tasks and activities, that will help to uplift maturity
