

## DATASHEET

# Microsoft Fabric Immersion Workshop

Discover how to empower your data journey with Microsoft Fabric's unified analytics platform.

Microsoft Fabric combines the best of Microsoft Power BI, Azure Synapse Analytics, and Azure Data Factory to create a single, unified software as a service (SaaS) platform with seven core workloads - each purpose-built for specific personas and specific tasks.

Throughout this workshop we'll explore how all these experiences empower data and business professionals alike to unlock the potential of their data and lay the foundation for the era of AI. Fabric empowers every team in the analytics process with the role-specific experiences they need, so data engineers, data warehousing professionals, data scientists, data analysts, and business users feel right at home.

Think of Fabric like Office for Data. Just like Office 365 has Word for document authoring, PowerPoint for presentations, Excel for spreadsheets, etc. in Microsoft Fabric, you have the following core workloads:

- **Data Factory** provides more than 150 connectors to cloud and on-premises data sources, drag-and-drop experiences for data transformation, and the ability to orchestrate data pipelines.
- **Data Engineering** enables great authoring experiences for Spark, instant start with live pools, and the ability to collaborate.
- **Data Science** provides an end-to-end workflow for data scientists to build sophisticated AI models, collaborate easily, and train, deploy, and manage machine learning models.
- **Data Warehousing** provides a converged lake house and data warehouse experience with industry-leading SQL performance on open data formats.
- **Power BI** in Fabric provides industry-leading visualisation and AI-driven analytics that enable business analysts and business users to gain insights from data. The Power BI experience is also deeply integrated into Microsoft 365, providing relevant insights where business users already work.

### Benefits:

- Learn about the Fabric vision and roadmap
- Explore how Fabric integrates with your data estate
- Uncover value as you migrate from end-of-life PowerBI Premium to Microsoft Fabric
- Tailored ideation and use case session

**Duration:** 1 Day

## Why you should attend

As data-driven decision-making becomes increasingly vital, it's essential to understand how Microsoft Fabric is revolutionising analytics. By attending this workshop, you can:

- Learn how to streamline data engineering, data science, and data warehousing in one cohesive platform.
- Explore how Fabric's AI-driven analytics and real-time intelligence can unlock business insights and fuel innovation.
- See how Fabric empowers every role in your organization—from data engineers to business users—to collaborate and deliver faster, smarter outcomes.
- Walk away with actionable next steps based on your specific needs and objectives

## Why Insight for Microsoft?

Few can compare with our relationship with Microsoft. Partners for 30 years and counting, we are the largest Microsoft global partner with more than 5,000 consultants and 1000 dedicated Microsoft resources globally. Our best-in-class capabilities, unmatched expertise, and ability to successfully deliver solutions built across all areas of Microsoft technology have earned us numerous recognitions.

### 7 Microsoft Solutions Partner Designations, including:

- Data & AI (Azure)
- Digital & App Innovation (Azure)
- Infrastructure (Azure)

### Microsoft Partner Awards, including:

- 2023 Microsoft Australia Partner of the Year
- 2023 Microsoft Hong Kong Partner of the Year
- 2023 Solution Assessments Partner of the Year
- 2022 Microsoft Surface Reseller Partner of the Year
- 2022 Microsoft Surface Hub Reseller Partner of the Year
- 2021 Microsoft Security Partner of the Year (Singapore)

### 22 Specialisation, including:

- AI and Machine Learning
- Analytics
- Data Warehouse Migration

**2,500** Microsoft certifications globally

## About Insight

Insight Enterprises, Inc. is a Fortune 500 solutions integrator with more than 11,500 teammates worldwide helping organisations accelerate their digital journey to modernise their business and maximise the value of technology. We enable secure, end-to-end transformation and meet the needs of our clients through a comprehensive portfolio of solutions, far-reaching partnerships and 33+ years of broad IT expertise. Rated as a Forbes World's Best Employer and certified as a Great Place to Work, we amplify our solutions and services with global scale, local expertise and a world-class e-commerce experience, realising the digital ambitions of our clients at every opportunity.
