

AI Designed to Accelerate Team Communication

Grammarly is an AI writing partner designed to optimize your communication. Built on over 15 years of experience in writing assistance, Grammarly's AI draws from world-class linguistic expertise and deep knowledge of professional writing best practices.

→ Cut costs, not corners

Your team can rewrite entire paragraphs in a click and generate content in seconds. That way, they can spend more time on high-value work.

→ Substance, not just style

Improve the strategic value of your writing—not just the style—with AI that understands your audience, your goal, and best practices in professional writing.

→ Trusted, secure, responsible AI

We meet strict, enterprise-grade industry standards for data security and privacy, which is why we're trusted by industries like healthcare and government.

Where Gen AI Makes a Difference

Marketing

Quickly produce on-brand content that resonates with your audience.

Sales

Scale outreach and save time on email replies.

CX

Communicate with the right tone and information to resolve issues faster.

HR

Level up all your employees with writing quality and fluency help.

IT

Help your teams work and grow faster than your peers with quick, secure, org-wide AI.

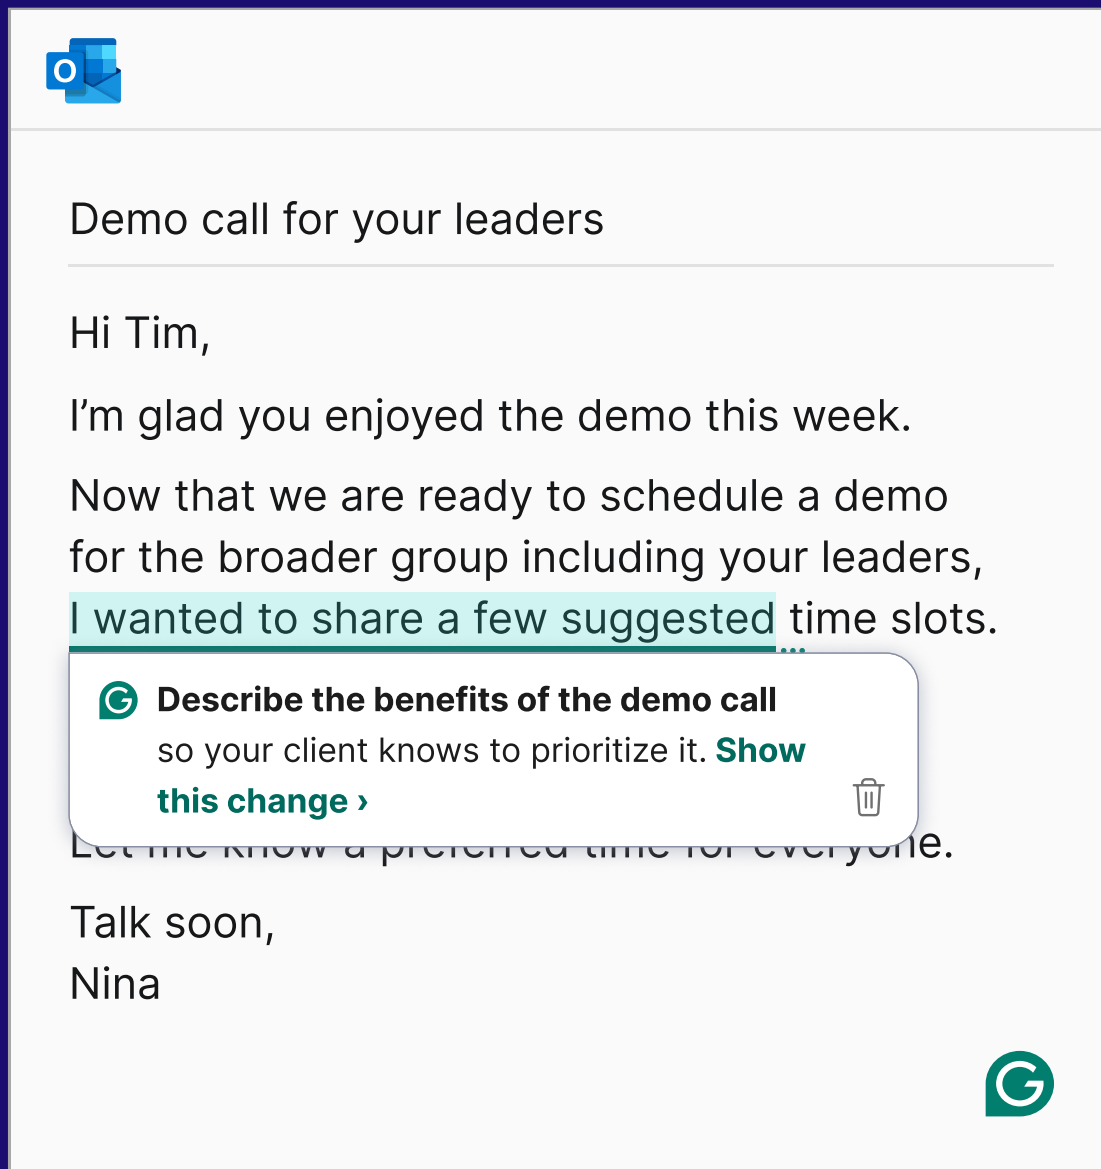

out of

professionals believe generative AI tools can help them communicate more effectively at work.

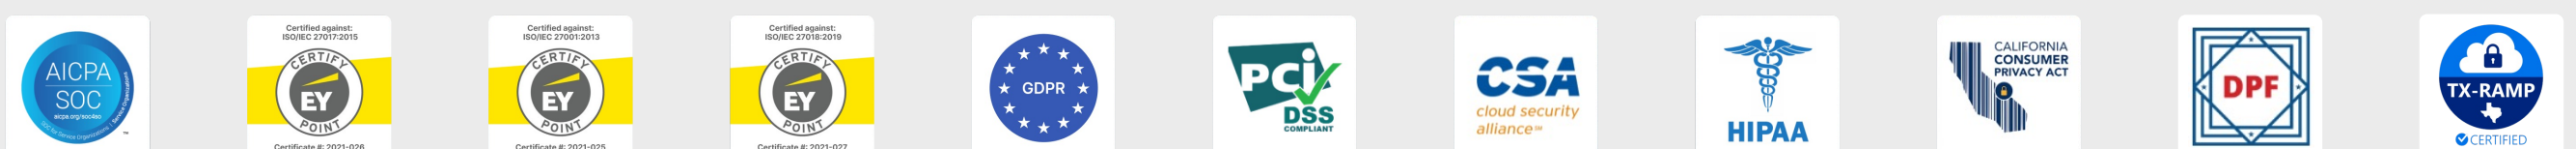

Features That Transform Your Workflow

- **Strategic suggestions**
Get automatic suggestions to improve the substance of your writing based on its detected goal and audience.
- **Full-paragraph rewrites**
Polish entire paragraphs in a click with AI revisions that correct mistakes and improve style.
- **Rewrite, compose, and ideate on-demand**
Prompt Grammarly with instructions and create high-quality writing in a snap.
- **Reply quickly to emails**
Choose from one-click suggested prompts to instantly generate thoughtful email replies.
- **Voice profiles**
Grammarly can learn your unique writing style and rewrite text in your voice, so you communicate authentically and stay on-brand.

AI Built Responsibly

With over 15 years of experience building AI models designed to reduce bias and ensure fairness, Grammarly is an industry leader backed by the highest certification and regulatory compliance standards. Our secure solution is built on best-in-class infrastructure.

Grammarly is built to understand a person's writing style, voice, and intent so it won't sound like it's coming from a "bot."
